

## "OPPOSE the Cybersecurity Act of 2009"

I'm writing to ask you to please OPPOSE S. 773 and S. 778, which are part of the so-called "Cybersecurity Act of 2009."

Both of these bills would grant the White House sweeping new powers to access private online data, regulate the cybersecurity industry and even shut down Internet traffic during a declared "cyber emergency."

Giving the Department of Commerce oversight of the "critical" networks -- like banking records -- would give the government access to confidential, private information obtained without cause or warrant, which is a CLEAR violation of the U.S. Constitution's Fourth Amendment prohibition against unlawful search and seizure. Don't let this happen. Please, OPPOSE S. 773 and S. 778, which are part of the so-called "Cybersecurity Act of 2009." Thank you.
